2. Click “join a meeting”.
3. Enter Meeting ID. (see above)

5. Once downloaded, click on “Zoom” in your downloads and begin the installation process. This shouldn’t take more than a minute. Click Accept/Continue and Install.
6. This should take you back to the Zoom website and you will be able to open the application from there by clicking “Open Zoom”.
7. On the “home” page in the application, click the big blue plus sign to “join meeting”. Enter the Meeting ID **822 5779 3826** (no password needed). If you would not like your picture to be seen by other people, click the box that reads “Turn off my video”. If you would like to listen and not talk in the meeting, click “Don’t connect to audio”.
8. Click “Join” and ensure the volume is turned up on your computer and your video settings are allowed (if you are having problems with this you may only be able to enter as audio, but you will be able to see and hear everyone else). Click “join with computer audio”.
 - a. If at any time you would like to mute yourself or turn off your video, those options are in the lower left corner of the application screen.
 - b. The screen is set up so the big picture will show whoever is talking, however, you change this by clicking “Gallery View” in the top right corner of the screen. Then you see everyone at once.
 - c. If you would like to ask a question, you may click “chat” in the lower bar and type a question when the chat box opens on the right side of your screen.
